

The Future of the EV Ecosystem:

Policy, Infrastructure, and Scalable Decarbonization

Join us for the IEEE TEC-sponsored expert panel discussion on the future of EV ecosystems, featuring leaders in policy, infrastructure, and sustainable transportation

The expert panel:

Dr. Rachael Nealer
(Policy/Data)

Director at Atlas Public Policy. Strategic leadership and policy expert to advance data-driven solutions for transportation electrification, climate policy, and infrastructure.

Erika Myers
(Infrastructure/Standards)

Executive Director of CharIN North America. The leading voice on universal charging standards, NACS, and interoperability.

Moderator:

Dr. Daniela Touma
(Chair of WiTEC)

Aishwarya Ray
(Technical/Industry)

Technical Specialist at Cummins. Technical leader in heavy-duty electrification, e-axle products, and powertrain controls.

Technical Highlights:	Policy Barriers	Infrastructure Reliability	Heavy-duty breakthroughs	AI in Transportation
------------------------------	------------------------	-----------------------------------	---------------------------------	-----------------------------

Join us on
Wednesday, July 1st
from 10:30 AM
to 11:30 AM (CST)
